

COMPOSITES

INDEX TO VOLUME 5

Published by IPC Science and Technology Press Ltd

Authors

Armstrong, K. B.
Aircraft floor panel developments at British Airways (1967-1973) ... 165

Ashbee, K. H. G. *see* Leach, P. and Ashbee, K. H. G.

Bader, M. G. and Ellis, R. M.
The effect of notches and specimen geometry on the pendulum impact strength of uniaxial cfrp ... 253

Bader, M. G. and Johnson, M.
Fatigue strength and failure mechanisms in uniaxial carbon fibre reinforced epoxy resin composites systems ... 58

Bert, C. W.
Static testing techniques for filament wound composite materials ... 20

Bortz, S. A. and Onesto, E. J.
Flame and plasma sprayed ceramics for uses in biomedical applications ... 151

Bunsell, A. R. and Harris, B.
Hybrid carbon and glass fibre composites ... 157

Cardrick, A. W. and Smith, M. A.
An approach to the development of meaningful design rules for fatigue-loaded cfrp components ... 96

Collings, T. A.
Transverse compressive behaviour of unidirectional carbon fibre reinforced plastics ... 108

Desai, R. R.
Corrosion control fibre reinforced plastics enclosures ... 16

Edwards, V.
Specifications for composites ... 73, 122, 179, 219, 259

Ellis, R. M. *see* Bader, M. G. and Ellis, R. M., Green, A. K. and Pratt, P. L.
The axial fatigue behaviour of unidirectional type IIIS carbon fibre-epoxy resin composites ... 63

Harris, B. *see* Bunsell, A. R. and Harris, B., Harris, S. J. and Lee, R. E.
Effect of fibre spacing on the fatigue behaviour of metal matrix composites ... 101

Hart, G. L.
The international status of reinforced plastics ... 174

Hudson, D.
The use of automatic dielectrometry for autoclave moulding of low void composites ... 247

Isserow, S. and Rizzitano, F. J.
Titanium-beryllium micro-composites: a state-of-the-art review ... 145

Johnson, M. *see* Bader, M. G. and Johnson, M.

Knibbs, R. H. and Morris, J. B.
The effects of fibre orientation on the physical properties of composites ... 209

Leach, P. and Ashbee, K. H. G.
Development of a light-pipe technique for investigating interfacial phenomena in fibre-reinforced composites ... 67

Lee, R. E. *see* Harris, S. J. and Lee, R. E.

Maine, F. W. and Shepherd, P. D.
Mica reinforced plastics: a review ... 193

Morris, J. B. *see* Knibbs, R. H. and Morris, J. B.

Ogorkiewicz, R. M. and Weidmann, G. W.
Tensile creep of a unidirectional glass fibre epoxy laminate ... 108

Ogorkiewicz, R. M. and Weidmann, G. W.
Shear stiffness of epoxy/glass composites ... 242

Onesto, E. J. *see* Bortz, S. A. and Onesto, E. J.

Oswitch, S.
The development of a new class of polyimide laminating resins ... 55

Parker, Brenda M.
Boron fibre and boron reinforced composites (Article 5 in the series 'Composite materials and the designer') ... 7

Paul, K. T. *see* Scott, K. A. and Paul, K. T.

Potter, R. T.
Repeated loading and creep effects in shear property measurements on unidirectional cfrp ... 261

Razl, I. *see* Riley, V. R. and Razl, I.

Riley, V. R. and Razl, I.
Polymer additives for

cement composites: a review ... 27

Rizzitano, F. J. *see* Isserow, S. and Rizzitano, F. J.

Scott, K. A. and Paul, K. T.
Weathering resistance of plastics composites (Article 6 in the series 'Composite materials and the designer') ... 201

Shepherd, P. D. *see* Maine, F. W. and Shepherd, P. D.

Smith, M. A. *see* Cardrick, A. W. and Smith, M. A.

Utley, W. A.
Sound insulation of composite materials ... 34

Weidmann, G. W. *see* Ogorkiewicz, R. M. and Weidmann, G. W.

Titles

Aircraft floor panel developments at British Airways (1967-1973). K.B. Armstrong. ... 165

An approach to the development of meaningful design rules for fatigue-loaded cfrp components. A. W. Cardrick and M. A. Smith ... 96

The axial fatigue behaviour of unidirectional type IIIS carbon fibre-epoxy resin composites. A. K. Green and P. L. Pratt ... 63

Boron fibre and boron reinforced composites. Article 5 in the series 'Composite materials and the designer'. Brenda M. Parker ... 7

Corrosion control fibre reinforced plastics enclosures. R. R. Desai ... 16

Development of a light-pipe technique for investigating interfacial phenomena in fibre-reinforced composites. P. Leach and K. H. G. Ashbee ... 67

The development of a new class of polyimide laminating resins. Oswitch, S. ... 55

The effects of fibre orientation on the physical properties of composites. Knibbs, R. H. and Morris, J. B. ... 209

Effect of fibre spacing on the fatigue behaviour of metal matrix composites. Harris, S. J. and Lee, R. E. ...	101	The use of automatic dielectrometry for autoclave moulding of low void composites. Hudson, D. ...	247	5th National Technical Conference (SAMPE), New York, USA (9-11 October 1973) ...	77
The effect of notches and specimen geometry on the pendulum impact strength of uniaxial cfrp. Bader, M. G. and Ellis, R. M. ...	253	Weathering resistance of plastics composites. Scott, K. A. and Paul, K. T. ...	201	Fracture mechanics in composite material, Paris, France (6 March 1973) ...	129
Fatigue strength and failure mechanisms in uniaxial carbon fibre reinforced epoxy resin composite systems. Bader, M. G. and Johnson, M. ...	58	Book reviews		FRP pipe symposium, Geneva, Switzerland (28-29 November 1973) ...	127
Flame and plasma sprayed ceramics for uses in biomedical applications. Bortz, S. A. and Onesto, E. J. ...	151	Carbon fibres in engineering	84	Interfacial bonding and fracture in polymeric, metallic and ceramic composites, Los Angeles, USA (13-15 November 1972) ...	40
Hybrid carbon and glass fibre composites. Bunsell, A. R. and Harris, B. ...	157	Designing with composite materials ...	186	Practical metallic composites, Palma, Majorca (22-25 March 1974) ...	183
The international status of reinforced plastics. Hart, G. L. ...	174	Composite steel and concrete construction ...	186	Properties and applications of fibre reinforced concrete, Ottawa, Canada (11 October 1973) ...	181
Mica reinforced plastics: a review. Maine, F. W. and Shepherd, P. D. ...	193	Manufacturing technology of continuous glass fibres, Strong solids ...	267 130	Reinforced Plastics '73, Karlovy Vary, Czechoslovakia (15-17 May 1973) ...	83
Polymer additives for cement composites: a review. Riley, V. R. and Razl, I. ...	27	Abstracts		Symposium on 'Fatigue in composites', Imperial College, London (15 November 1973) ...	76
Repeated loading and creep effects in shear property measurements on unidirectional cfrp. Potter, R. T. ...	261	Abstracts of journals 43, 85, 132, 187, 271		Third international conference on the strength of metals and alloys: composites session, Cambridge (20-25 August 1973) ...	38
Shear stiffness of epoxy/glass composites. Ogorkiewicz, R. M. and Weidmann, G. W. ...	242	Abstracts of patents 45, 88, 133, 234, 275		29th SPI Annual Conference, Washington, USA (5-8 February 1974) ...	221
Sound insulation of composite materials. Utley, W. A. ...	34	Conference reports			
Static testing techniques for filament-wound composite materials. Bert, C. W. ...	20	Annual German Reinforced Plastics Conference, Freudenstadt, West Germany (3-5 October 1973) ...	81		
Tensile creep of a unidirectional glass fibre-epoxy laminate. Weidmann, G. W. and Ogorkiewicz, R. M. ...	117	American Ceramic Society, 76th Annual Meeting and Exposition ...	269		
Titanium-beryllium microcomposites: a state-of-the-art review. Isserow, S. and Rizzitano, F. J. ...	145	International carbon fibres conference, London, England (18-20 February 1974) ...	228		
Transverse compressive behaviour of unidirectional carbon fibre reinforced plastics. Collings, T. A. ...	108	Composite materials, of Constance, W. Germany (28-29 March 1974) ...	267		
		Composite materials, Leamington Spa, England (24-25 October 1973) ...	126		
		The 11th Biennial Conference on Carbon, Gatlenburg, Tennessee, USA (4-8 June 1973) ...	124		
		Fibre reinforced metals, Stockholm, Sweden (7 November 1973) ...	128		
				Specifications	
				British standards for composites	
				3. Prepregs and moulding materials. Edwards, V. ...	179
				Specifications for composites: phenolic and silicone resins. Edwards, V. ...	122
				Specifications for composites: reinforcements other than glass. Edwards, V. ...	73
				USA Specifications for composites 5. Prepregs and moulding materials. Edwards, V. ...	219
				USA Specifications for composites 6. Reinforced polyolefins and polycarbonates. Edwards, V. ...	259
